

I subscribe to satellite radio due to the high quality and variety of choices not found on commercial radio. Due to the fact that this is a subscription service that I *choose,* I feel that the NAB should not have a say in what I want to hear.

Please reject NAB's petition #04-160 so as a subscriber to satellite radio, I can continue to enjoy the programming that I pay for, and want to hear.

Respectfully Yours,

Jeff King
St. Louis, MO
